

# Career Advisory Interpreter Telephone Number

**Step 1: Dial 03 9679 9804**

**Step 2: Request Language**

**How to work with a Telephone Interpreter:**

- Introduce yourself to the interpreter, explaining where you are and the nature of your call.
- Clearly indicate the expected duration of the call, and limit conversation to the essentials to allow interpreter to assist clearly.
- Try to make yourself clear as an interpreter can't rely on body language to understand and convey information to a Non-English speaking client.
- Clearly indicate when the session has ended to everyone involved in the call.
